The wall mounted (or stand-alone) MCI™ PROTECTAIR is designed to improve indoor air quality by dealing with pollutants in a proactive way. The MCI™ PROTECTAIR produces aggressive ionized oxidizers and trademarked MCI™ multi-cluster ions that are then distributed throughout the home or office.

This trademarked MCI™ Multi-cluster Ionization Technology, using an enhanced output, represents the newest generation of proactive air purification, is completely safe, unlike high levels of ozone, and effectively destroys mold, mildew, bacteria, viruses, odors, volatile organic compounds (VOCs) and the odors associated with them in the air and on surfaces.

- ☑ Trademarked MCI™ Technology
- ☑ Pro-active Air and Surface Sanitization
- ☑ Cleaner Air and Surfaces
- ☑ Cleaner, Safer, Healthier Environment
- ☑ Affordable, Durable
- ☑ Energy Efficient
- ☑ Patented DBI Components

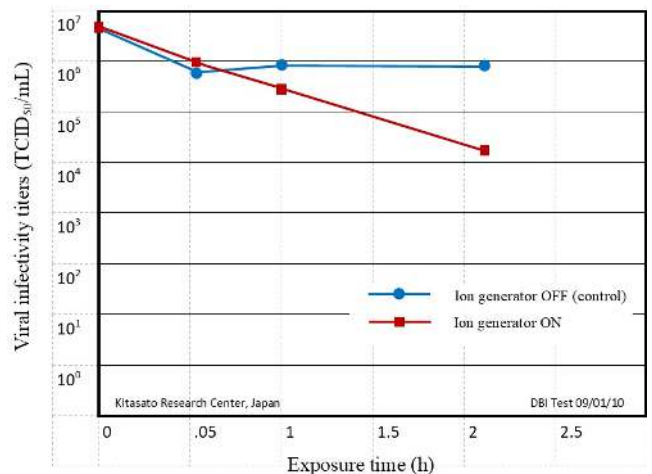

Figure 1: Antiviral efficacy of ion generator

NOTE: The internal components of unique MCI™ Technology has been tested and proven to reduce the microbial load in the air and on surfaces. Surrogate testing to prove efficacy for mold, bacteria and viruses has been compiled in a 550+ page booklet, available in electronic format, upon request, for your review.
